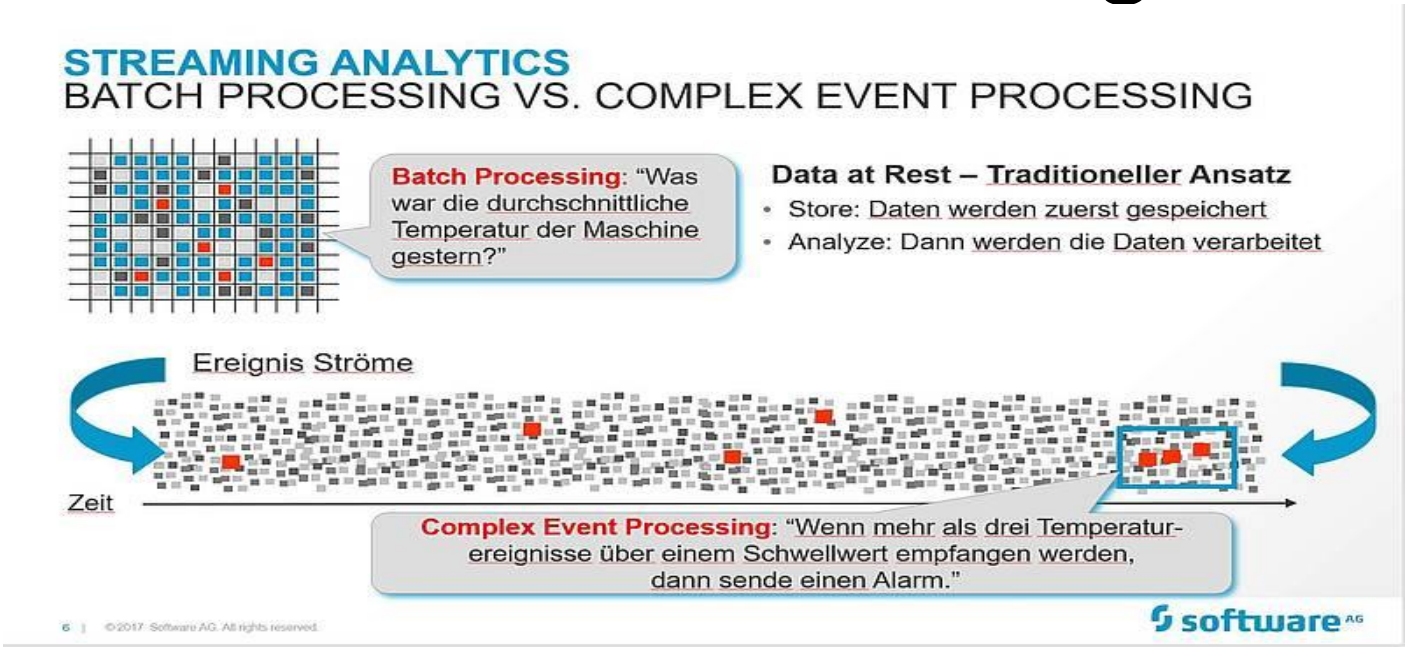
Big Data

We are drowning in information but starved for knowledge.
John Niasbitt

It is valuable, but if unrefined it cannot really be used. It has to be changed [...] to create a valuable entity that drives profitable activity.
Clive Humby, UK Mathematician

Standardanwendung



Analyse von Massendaten (in Echtzeit)

Anomalien nach denen gesucht wird **sind bekannt**

Big Data Herausforderungen

Volume:

schiere Anzahl an Daten

Variety:

strukturierte, semi-strukturierte, unstrukturierte, Multimedia-Daten

Velocity:

Auswertung in Echtzeit

Value:

Steigerung des Unternehmenswerts (*Sicherheit im CIR)*

Veracity:

Datenbestände liegen in unterschiedlicher Qualität vor.
Bewertung der Aussagekraft.

Große Sets von Daten aus unterschiedlichen Quellen sind chaotisch und hässlich.
Bill Franks

?Fragen?

Vom „Hype“…

“If we're going to be connected, then we need to be protected. Cyber […] is our country’s biggest threat.”” (Barack Obama, 2015)

“ Cyber-attack can trigger Article 5 collective defence; because we regard cyber as potentially as dangerous as a conventional attack.”
(Jens Stoltenberg, 2015)

…zur Realität.
