Possibilities:

A more detailed outline of the specific aspects of the student's course of studies or

A more detailed outline of the UniBwM, as in the following:

The following paragraph provides brief information on the Universität der Bundeswehr München and its status within the system of higher education in Germany.

The Universität der Bundeswehr München is a university that falls under the portfolio of the German Ministry of Defence. The academic degrees (diploma, bachelor's, master's, doctorate, and postdoctoral lecturing qualification) awarded by the university are officially recognised by the German government and are fully equivalent to the degrees awarded by state universities in Germany.

The university admits students serving as officers in the German Armed Forces. In addition, officers of friendly nations are accepted, as are civilian students who signed a contract with a professional association. Applicants must have completed the advanced level secondary school education (Abitur) generally required for enrolling at German universities and officers must pass the aptitude test required by the German Armed Forces. All officers sign on a 13-year term of service, which typically includes a one-and-a-half year officer training program, a course of studies at the university of between three and four years, and seven-and-a-half years of service in a military unit.

University study is divided into terms of three months each and follows a tight schedule in order to enable students to complete their studies within the time prescribed for academic studies in Germany (intensive program). Apart from their chosen field of study, students also attend courses in order to obtain additional key qualifications and soft skills (*studium plus*).

The dual qualification of military service as an officer and university education is excellent for a military career as well as for a career in the private sector at the end of their military service. The academic background of the officers has been found to be a great benefit to the German officer corps.
